

CHINA-US BUSINESS SUMMIT BACKGROUND/HISTORY

The goals of the China-US Business Summit are:

1. Building a platform for communication and cooperation between small and medium-sized enterprises in China and the USA.
2. Integrating resources in China and the USA creating and seizing business opportunities.
3. Promoting Chinese entrepreneurship and corporate culture.
4. Enhancing mutual understanding and economic integration.
5. Providing comprehensive services for international cooperation of Chinese and American enterprises.

The 2012 China-US Business Summit looks forward to continuing its entrepreneurial goals as listed above.

“Born in the spring of 2010 and expanded in 2011 and again in 2012, the China-US Business Summit began as a mere idea,” stats Chairman Steven Shen. “We have come so far and have experienced significant changes from Panda Express’s successes to camaraderie in Silicone Valley to exciting Las Vegas and the serene Napa Valley.”

Each year the China-US Business Summit expands, more entrepreneurs are offering to co-organize and participate in the Business Summit. Many participants have and will continue to sign “zero-risk” US market listing agreements and others have expressed a willingness to establish businesses in the US.

History is being written. At the 2012 Business Summit, open minds will congregate to build channels for professional small and medium-sized enterprises in China and the US to work, to grow and to prosper together.
